

Since childhood, I have listened to Air 1 (90.1 FM and 100.7 FM where I live); now, as a college student, I financially support them because I believe they serve the community in ways other radio stations never will. They purposefully promote service, social peace, respect, and love; they pray four times daily for listeners' prayer requests; they have helped hundreds of suicidal callers choose life; and they play positive, encouraging music. They don't just play music to entertain, they're out to impact the world.

There are Air 1 Radio listeners throughout the nation, many of them actively financially supporting this community service. Please consider the depth of Air 1's value on the air waves before giving LPFM priority.
